SOVEREIGNTY COALITION’S “SOVEREIGNTY SUMMIT” TO SHOWCASE OPPOSITION TO W.H.O.’S ILLEGAL POWER-GRAB

World Leaders to Say “Not Now” to Improper Approval of “Global Governance” Treaties

WASHINGTON, D.C.—**The Sovereignty Coalition** is pleased to announce its convening of “**The Sovereignty Summit**” to demonstrate the growing international opposition to the impending, stealthy effort to supplant national sovereignty with tyrannical “global governance.” On Thursday, May 23rd, the Coalition, with the indispensable help and participation of **U.S. Senator Ron Johnson**, will bring together leading American and foreign legislators determined to prevent the approval at next week’s meeting of the World Health Assembly (WHA) of either, or both, of what amount to two *as-yet-unfinished* treaties that would make the World Health Organization’s Director General a global dictator for public health.

The Summit will provide a platform for elevating grave concerns about the contents of the accord amending the **WHO International Health Regulations (IHR)** and the so-called **Pandemic Agreement**. It will also address as the WHO’s failure to conform to *the IHR’s own Article 55(2)*, requiring that such amendments must be submitted *at least four months* in advance of the meeting at which they are to be considered. That deadline passed on January 27th. Worse yet, it is unclear whether the texts of either of the IHR amendments or the Pandemic treaty which is predicated upon them will be available for virtually *any* prior review.

Accordingly, participants in the Summit will be endorsing a theme of “**Not Now**” – the proposition that these treaties are not ready for prime-time and must not be considered, let alone approved, during this WHA meeting. The participating parliamentarians from around the world will insist on full transparency with regard to the various obligations, restrictions and commitments entailed in both accords and

opportunities to have informed national debates and deliberations *before* any become binding on their peoples.

Sovereignty Coalition co-founder Frank Gaffney said, “Unbeknownst to *practically anyone* in this country and most others around the world, the Biden administration – in collusion with the Chinese Communist Party, the World Economic Forum, the European Union, Bill Gates and Big Pharma – is intent on getting the United States and others bound to the supremacy of the unaccountable leader of the WHO on any matter he deems to involve ‘public health.’ The Sovereignty Summit will make clear that is completely unacceptable.”

Reggie Littlejohn, Esq., also a co-founder of the Coalition, added, “Provisions in the current drafts of both treaties are cause for great concern. If passed, they could be used to create an international biotech surveillance police state, and may greatly increase the incidence of pandemics through the sharing of deadly pathogens. The public and even legislators and parliamentarians worldwide are unaware of the dangers to national sovereignty and personal medical freedom contained in these draft treaties. Meanwhile, no mechanism exists by which to hold the WHO accountable. In rushing these treaties through, the WHO is breaking its own rules. The vote on these instruments **must be delayed** so that civil society will have time to analyze these instruments and their impact.”

What: An international “Sovereignty Summit”

Who: Leading U.S. and foreign legislators participating both in-person and remotely and representing the sovereignty and popular sentiment of their nations with regards to efforts to submit them to “global governance” and supranational medical tyranny

When: 10:00 a.m. - 12 p.m., Thursday, May 23rd

Where: Room TBD, U.S. Capitol Visitors Center
